AI Card Player

Privacy Policy

This Privacy Policy was updated on December 9, 2019.

AI Card Player ("app") is designed and developed by Juergen Ehret ("we", "us", or "our"), an independent engineer and scientist.

Your privacy is important to us. The following describes how we handle personal information when you use our app or visit our website at https://snoopy2018.github.io ("website").

What Information Do We Collect?

We do not collect, use, or save any personally identifiable data about you, or your mobile device. The app uses videos of your Photos library only for image processing. The app analyzes image data of a video, but it does not read or use any other information (create date, location, etc.).

What Services Do We Use?

The following gives you information and references to privacy policies of companies whose services we use:

- **Apple**. We use Apple's App Store to distribute our app, and Apple's TestFlight app to perform beta testing. Please review and understand Apple's privacy policy before you provide Apple personal information. During beta testing, we use with your consent app usage, crash logs, or feedback from you to improve our services.
- **GitHub**. We use GitHub's hosting service to publish and maintain a support website of our app. As web host, GitHub monitors how many users visit our website, but without disclosing any personal information from visitors to us.

What Information Do We Share?

We do not share any of your personal information that you have given to us. For example, if you have sent us an email, we will use your email address to communicate with you, and we will not share it with any other party.

Contact Us

If you have any questions or comments about our privacy policy, do not hesitate to contact us at juergen_ehret2000@yahoo.com.
